

## Design Security Doors - feeling safe without sacrificing aesthetics

Behind each door there is a unique and unrepeatable story: a family, teens, kids who grow up, timeless emotions and small everyday details. These are the stories that inspire a continuous search for quality and innovation, resulting in a process that combines research, experimentation, art, design, production control.

ALIAS doors ensure excellent performance from anti-burglary efficacy to acoustic insulation. They are tested for 50,000 openings, the equivalent of 30 years of absolute security.

**DREAM** is the security door specifically designed for interiors and in particular for **bedrooms**. With its unique structure and adaptability, **Dream** can be included in every kind of housing project and adapts to any frame and inner door panels. It can take the shape of any interior door without being intrusive and ensures your safety with absolute discretion.

**FLAT COLLECTION** is a system created to make each place unique and to give space a new design dimension.

The particular framework of the door profile ensures a **reduction of thermal transmittance** till a value of  $1,0 \text{ W/M}^2\text{K}$ . A unique product, with an innovative personality and top insulation performances.

**MAGMA** is the fire rated door structure certified according to EN 1634-1. It is available in different version with fire resistance up to EI<sub>2</sub>90.

**WING WALL** is the only flush to the wall security door, perfectly coplanar to the internal wall. It is also available in EI<sub>2</sub>60 fire resistant version.

The innovative **Wing series (WING BOISERIE, WING ALI, WING STORE)** permits to create an infinite number of compositional solutions. The door panel can be extended to a coplanar boiserie, to side moveable wings or to a wardrobe giving an idea of continuity so that the house entrance will acquire a new identity suitable for the most elegant spaces. Wing series perfectly combines beauty and functionality, the safety of a security door mixed with the beauty of real furniture for the home entrance.

New **DEFENDER** gratings have been designed to protect houses combining class 3 certified anti-burglary features with harmony and style. They can be customised with different finishes and technical options to satisfy all Customers' requests.
